

DEPARTMENT OF PEDIATRICS

GOVERNMENT MEDICAL COLLEGE, KATHUA

INTRODUCTION

Pediatrics (also spelled paediatrics or pædiatrics) is the branch of medicine that involves the medical care of infants, children, and adolescents. Pediatricians work both in hospitals, particularly those working in its subspecialties such as neonatology, and as outpatient primary care physicians. The Department of Paediatrics Care Hospitals provides complete health solutions for children of all ages. The department has experienced pediatric care intensivists and skilled general pediatricians, state-of-the-art equipment and Pediatric Intensive Care Units (PICU) with facilities for ventilation. The department of Pediatrics at GMC Kathua is a fully equipped department with essential facilities to provide comprehensive care to the patients of Kathua and adjoining areas. The department caters daily a good quality patient consultation as well as various procedures

MISSION OF THE DEPARTMENT

To provide the highest quality patient care to all people through innovation, world-class research, and training the next generation of surgical health care professionals and scientists.

QUALITY POLICY

Associated Hospital-G.M.C Kathua is committed to provide service excellence in an equitable way with best practices in Medicare and maintaining highest standards of quality with assurance to treat patient with due respect, compassion and dignity in a safe environment. Govt. Medical College Kathua is also committed to provide Healthcare par excellence. This would be achieved through:-

- Complying with National Quality Standards
