

DEPARTMENT OF DENTAL SURGERY GOVERNMENT MEDICAL COLLEGE, KATHUA

Email: - dentalkathua@gmail.com

GENERAL INTRODUCTION ABOUT THE DEPARTMENT

- Dentistry is a branch of medicine that deals with the study, diagnosis, prevention and treatment of diseases, disorders and conditions of the oral cavity. Commonly it deals with the dentition, oral mucosa, adjacent and related structures particularly in the maxillofacial area.
- Although primarily associated with teeth. The field of dentistry or dental medicine is not limited to teeth but includes other aspects of the craniofacial complex including the temporomandibular and other supporting structures.
- The term dentistry comes from the word odontology which comes from the ancient Greek word odontos which means TOOTH. Thus dentistry means study of the structure, development and abnormalities of the teeth. Because of their substantial overlap in concept, dentistry is often also understood to subsume the now largely defunct medical specialty of stomatology (the study of the mouth and its disorders and diseases) for which reason the two terms are used interchangeably in certain regions.

ABOUT THE DEPARTMENT

- The department of dentistry at GMC Kathua is a fully equipped department with essential facilities to provide comprehensive care to the patients of Kathua and adjoining areas.
- Daily department caters good number of patients for consultation as well as for various minor and major surgical procedures.

OBJECTIVES OF OUR DEPARTMENT

- To provide high quality dental care.
- To focus on prevention of dental diseases by promoting good oral health to all patients.
- To ensure that treatment adheres to the highest standards of safety and sterilization.

- To provide primarily management and emergency treatment to all emergency patients.

MISSION

- Our Mission is to provide highly specialized dental care in setting that always puts patients' needs first.

VISION

- To achieve the ultimate goal of healthy teeth and pleasing smile for everyone.
- Control and prevention of dental diseases by educating people and motivating them to follow basic dental hygiene.

“Smile is a language of love, smile is a way to get good success, smile is to win the hearts and smile improves your personality”. So for good smile brush twice daily.
